

Harbour, Twain, Beset & Lull

CARE & CLEANING GUIDELINES

The Harbour, Twain, Beset, and Lull Tubs are manufactured from High-Quality HydroLuxe, a blend of both organic minerals and the best in engineered composites. This blend combines a cast acrylic polymer for its benefits in durability and bonding strength, and ATH which is derived from Bauxite Ore. Bauxite is an aluminum ore, found mostly in tropical regions, and is the main source of aluminum. ATH is also natural fire-retardant. The nonporous surface is able to prevent dirt from gathering and withstands stains better than the other materials. To keep this high quality look on your tub, please follow these instructions:

To assure a long lasting “like new” look on your O’Neil Ruppel bathtub we recommend the following easy care procedures:

1. For normal maintenance, especially after use, clean with a soft cloth or sponge and a mild soap or liquid detergent.
2. DO NOT USE abrasives such as scouring compounds, scouring pads, steel wool or harsh chemicals on your O’Neil Ruppel bathtub. For deeper stains, hard scale deposits or any other cleaning or maintenance problem, contact your Renaissance Tile & Bath Design Consultant.

MATTE FINISH

1. Remove dust with a soft damp cloth, for example; microfiber or calico cloths.
2. Clean surface with water and any mild detergent or dish soap.
3. For a more difficult stain such as oil, paint, ink or grease clean with rubbing alcohol and dry with a soft cloth.
4. Please do not use any sharp objects because that might result in scratching the surface of the tub.
5. Use 180 grit wet/dry sandpaper and clean it with a soft scrub.

GLOSS FINISH

1. Clean with mild dish soap and water, any non abrasive product to clean high-gloss counter surfaces will work.
2. Remove dust with a soft damp cloth, for example; microfiber or calico cloths.
3. Clean oil, paint, ink or grease with rubbing alcohol and dry with a soft cloth.
4. Avoid using abrasive cleaners, it is not safe to use these on your glossed product.
5. Please do not use any sharp objects because that might result in scratching the surface of the tub.

Please do not use anything else other than what was instructed. Improper use can result in damage to the tub or its finish and may void the warranty. Keep in mind, if you do end up damaging the tub, scratches can usually be removed, buffed or polished out by an Authorized Renaissance Tile & Bath Service Agent.

All specifications and options subject to change without notice please contact a Renaissance Tile & Bath representative for more information.
